

## Hi, Welcome to the account creation page for your personal mEbank program!

If you are looking at this screen it means that you are the first person to use this program and will need to create an account in order to use your mEbank to its full capacity.

Now in order to create your account you need to enter a username and a password, neither of which contain the character "|", into the fields that are appropriately labelled as "Username" and "Password"

The image shows a dark-themed user interface for account creation. It features two white input fields. The first field is preceded by the label "Username" in a light blue font. The second field is preceded by the label "Password" in the same light blue font. Below the input fields, there are two light blue buttons with dark text: "Create" on the left and "Clear" on the right.

After you have done this just click confirm and make sure that you can remember your password and you will be good to go!
